CATTLE FEEDER

Specifications: 300 BUSHEL – 11m³, 6 TONNE (oats)

Diameter 2.845m / 9ft 4in

Height from ground to side filling port 2.7m / 8ft 11in

Height to centre filling port 3.2m / 10ft 6in

Fully galvanized construction on galvanized pipe ring.

D E Engineers “Cattle Feeder” works by allowing cattle to nudge the feed ring to allow feed into the feed tray. This means the cattle keep the feed tray empty, eliminating rotten feed and rusted feed trays.

Recommended for between 60-90 head of cattle.

PRICE: \$7,600- \$8,360 GST INC

Blow Tube Extra \$850, removable rain guards: \$264 (GST INC)

131 Clayton Street Bellevue , WA 6056.
